What is "Free EV"

Free EV is a ship graphics-mod for the game Escpe Velocity. I never knew the creator, only that he was working on another major mod for EV called The Gap, based on a sci-fi novel.

I'm archiving it here on my website so that all fans ov EV can check it out and relive a part of its past. If the real author wishes to contact me or anyone else has questions, feel free to e-mail me!

Until otherwise, this plug-in can be downloaded from my homepage.
